Nationality

Colombian

Marital status

Single

COMPUTER SKILLS

Python

PyTorch

Matlab

C/C++

Linux

LANGUAGES

Spanish Native

English Advanced (C1)

German Advanced (C1)

Italian Intermediate

PROFILE

A goal-oriented third-year PhD student at the University of Bern. Passionate about Natural Language Processing and Understanding, Computer Vision and their combination. With a structured and organized style, yet with the ability to work under pressure, I deliver results on time. Being a natural team-player, I enjoy and value different perspectives, personalities and cultural backgrounds.

WORK EXPERIENCE

2020

Heidelberg

Research Intern

Mediri GmbH

- Developing my master thesis on segmentation of multiple sclerosis lesions using a combination of CNNs and RNNs. [🔗](#)
- Goal: To leverage temporal information provided by longitudinal MRI data.

2016

Maulburg

Research Intern

Endress & Hauser

- Evaluating software tools (Python) for future use in the company.
- Analyzing models for sensor linearization.

EDUCATION

2020 - present

Bern

PhD Student

University of Bern

- Developing solutions in the topic of Visual Question Answering (VQA).

2018 - 2020

Le Creusot
Cassino
Girona
Heidelberg

Master in Medical Imaging and Applications (MAIA)

University of Burgundy, University of Cassino, University of Girona

- Some academic projects include:
 - Left ventricle segmentation using K-Means and Active Contours.
 - Classification of Chest X-Ray images using Deep learning.
 - Segmentation and classification of breast mass lesions using grayscale morphological operations and decision trees.
 - Classification of skin lesions using classical machine learning and deep learning.

2015 - 2016

Ilmenau

Exchange Semester

Ilmenau University of Technology

- Exchange semester during Young Engineers program of the German Academic Exchange Service (DAAD).

2011 - 2017

Cali

Electronic Engineering

Universidad del Valle

- Main focus on machine learning and computer vision.

PUBLICATIONS

2022

Consistency-Preserving Visual Question Answering in Medical Imaging [🔗](#)

International Conference on Medical Image Computing and Computer-Assisted Intervention (MICCAI). Co-authors: P. Márquez-Neila, R. Sznitman.

2020

Multiple Sclerosis Lesion Segmentation Using Longitudinal Normalization and Convolutional Recurrent Neural Networks [🔗](#)

Workshop on Machine Learning In Clinical Neuroimaging at the International Conference on Medical Image Computing and Computer-Assisted Intervention (MICCAI). Co-authors: S. Hoffman, M. Treiber, D. Mensing, A. Oliver, M. Günther, J. Gregori.

HONORS & AWARDS

2020

Le Creusot

Best master thesis and best student award

University of Burgundy, University of Cassino, University of Girona

2018

Girona

Erasmus+ grant

European Union

2017

Cali

Bachelor final project with distinction

Universidad del Valle

2015

Cali

Scholarship Young Engineers

German Academic Exchange Service (DAAD)

HOBBIES & INTERESTS

Violin
